## PROJECTS

---

### E-Commerce Website

Developed an E-Commerce website where users can go through different products, detailed information about a product offers, and contact us info.

- Designed page using following HTML structure elements and footer elements by using different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through the mobile-first approach.
- Implemented product youtube videos by using bootstrap embed and model components and displayed multiple images of offers in a carousel using a bootstrap carousel.

**Technologies used:** HTML, CSS, Bootstrap (https://ajio-sable-7b88e4.netlify.app/)

### Netflix Clone

Developed responsive Movies search application which shows movies and respective on the landing page. We can also search by specific Movie.

- If the user can be tap the sign in button the redirect to the main Netflix page then register it to the Details.

**Technologies used:** HTML, CSS, Bootstrap (https://titans-cannoli-6c1559.netlify.app/)
